A Message From the Minister

The Department of Education is pleased to present ***CareerSearch 2004, Employment Experience and Earnings of 2002 Graduates, Memorial University, Centre for Nursing Studies and the Western Regional School of Nursing***. This report is designed to address the growing need for high quality labour market information in support of career and program planning. Students, career counsellors and university personnel will find the information in this report makes a useful contribution to the complex decision-making process required in making sound career and program choices.

This publication, the fourth version of ***CareerSearch***, highlights government's commitment to ensuring accountability in post-secondary education in Newfoundland and Labrador. It provides detailed program-level information on graduate employment and earnings outcomes, out-migration, student loans and length of job searches, as well as graduates' opinions of their investment in their programs. Similar to the last ***CareerSearch***, we have included additional information on graduates from the Centre for Nursing Studies and the Western Regional School of Nursing.

We believe the continued publication of graduate follow-up research will further contribute to effective career planning for students. ***CareerSearch 2004, Employment Experience and Earnings of 2002 Graduates, Memorial University, Centre for Nursing Studies and the Western Regional School of Nursing*** is an excellent resource in this regard. For more information, please explore our on-line searchable version of ***CareerSearch*** on the Department of Education website at **www.gov.nl.ca/careersearch**.

CareerSearch 2004, Employment Experience and Earnings of 2002 Graduates

The purpose of this document is to provide accurate and current information about the transition of graduates from Memorial University into the labour market. Graduate results from the Marine Institute of Memorial and Sir Wilfred Grenfell College, the Centre for Nursing Studies and the Western Regional School of Nursing are also included in this report. The current document is intended to be a career planning resource for high school teachers, guidance counsellors, post-secondary administrators and instructors and, most importantly, high school and post-secondary students, as well as adults interested in university education.

Methodology

The information in this report was derived from the Department of Education's follow-up survey of those who graduated from post-secondary institutions in 2002.

Memorial University, the Marine Institute, the Western Regional School of Nursing, and the Centre for Nursing Studies were asked to provide and confirm lists of their graduates for the 2001-2002 academic year. These lists provided telephone numbers to be used by interviewers in contacting graduates. An attempt was also made to find missing phone numbers by cross-referencing students' names with other data available from the Department of Education. The overall objective was to obtain a list of graduates as complete as possible to ensure the survey was representative of the graduate population.

Upon completion of the graduate lists, a computer-assisted telephone interviewing (CATI) system was used in the administration of the surveys. Interviewers were employed to call and survey all the graduates entered in the system whether they were living in the province or not. They were further instructed to pursue graduates with up to ten calls, if necessary, at the listed telephone number or at numbers provided by parents, roommates, or other people contacted during the process. This strategy was implemented to enable the reporting of detailed information at all levels of aggregation, including the individual program level, and to ensure the best possible representation of the 2002 post-secondary graduates' experience.

The survey of 2002 graduates from Memorial University, the Marine Institute, Western Regional School of Nursing, and the Centre for Nursing Studies was conducted from January to March 2004 and in May of that year. The months in which graduates responded to the survey are listed in Table 1.

Table 1: Month in which Graduates Responded to Survey

	Memorial Certificate		Memorial Diploma		Memorial Master's		Memorial Undergraduate		Marine Institute		Centre for Nursing Studies		Western Regional School of Nursing	
	#	%	#	%	#	%	#	%	#	%	#	%	#	%

The 2002 Graduate Population

For the purpose of this study, graduates of 2002 were defined as individuals who attended convocation or graduated in the 2002 calendar year. This report therefore includes graduates of Memorial University who attended convocation in either May or October of 2002.

Surveyed graduates' reports of their final month of classes are presented in Table 2 on the following page. Most institutions had the majority of their graduates reporting their final month of classes between April 2002 and August 2002 although the Centre for Nursing Studies did have a considerable percentage of its graduates who reported finishing classes in September of that year (18.9%).

Response Rates

The goal of the study was to conduct a census of all graduates in order to obtain an accurate picture of Memorial University and nursing school graduates' transition from post-secondary education into the labour market or into further education. Although a census was not achieved, the level of participation by graduates from Memorial University, the Marine Institute, the Centre for Nursing Studies and the Western Regional School of Nursing was sufficient to provide a comprehensive picture of all graduate groups' educational experiences within each sector with the exception of those with doctorate degrees. The overall response rate was 64.2%. A detailed list of response rates by level of educational attainment is presented in Table 3.

In a small number of cases, graduates reported graduating from two programs in this graduation year. For the purpose of simplifying the survey results and to ensure each graduate was contacted only once, graduates were interviewed based on the program of the highest academic standing. For the program of lower academic standing, the graduate was listed as a non-respondent.

Results for Medical Doctors responding to the survey are not reported since, at the time of the survey, most had not finished their residency which is a required component of their training.

Report Overview

Memorial University offers programs yielding different levels of educational attainment. The previous versions of CareerSearch (2002, 2001 and 1999) noted that level of educational attainment exerts significant influence on graduate outcomes such as employment rates, student loan levels, and graduate satisfaction with investment of time and financial investment in education. In the **Key Findings** section, the educational attainment levels at Memorial are compared to each other as well as against those for graduates from Marine Institute, the Centre for Nursing Studies and the Western Regional School of Nursing. The **Key Findings** section also provides a description of graduate outcomes and sets the framework for the main section of the report.

The ***CareerSearch 2004*** report on Memorial and nursing school programs also includes an introductory **Users' Guide**. This guide is designed to assist readers in interpreting data from each of the tables presented in the two-page program profiles. It also outlines particular strengths and potential weaknesses in this information.

Finally, the main section of the document consists of two-page **Program Profiles** that summarize and compare graduate results from each program to the results from the combined pool of graduates associated with programs of similar educational attainment. For example, graduate results for the Marine Institute's Advanced Diploma in Food Safety are compared to graduate results for all advanced diploma programs at Marine Institute. Similarly, graduate results for Bachelor of Music programs are compared to graduate results for all undergraduate degrees at Memorial.

In the case of the nursing schools, the graduate results for the Bachelor's Degree in Nursing are compared to the results for all undergraduate degrees at Memorial University. In order to compare the graduate results for the Practical Nursing program to programs of similar duration, the results for this group are compared to those for the combined pool of graduates from one-year college programs (private and public) as reported in another volume of CareerSearch. For the Nurse Practitioner Diploma program offered at the Centre for Nursing Studies, the graduate results are compared to Memorial University Diploma programs.

Only programs with at least 5 respondents are reported in the Program Profiles. A listing of programs not profiled due to a low number of respondents is included in Appendix B. There has also been some pooling of graduates in similar programs in order to produce the 5 respondents required for a program profile to be included in this book. A list of the programs whose response rates were pooled is included in Appendix A.

Key Findings

Table 1: Employment status during reference week (June 23-29, 2003)

	Employed Full-Time	Employed Part-Time	Unemployed	In School	Other	Total
Memorial Certificate	58.6%	13.8%	13.8%	12.6%	1.2%	100%
Memorial Diploma	71.0%	12.9%	12.9%	3.2%	0.0%	100%
Memorial Master's	69.6%	7.5%	11.0%	9.3%	2.6%	100%
Memorial Undergraduate	63.1%	9.4%	14.6%	10.4%	2.4%	100%
Marine Advanced Diploma	62.5%	4.2%	25.0%	8.3%	0.0%	100%
Marine Certificate	68.8%	4.7%	18.8%	4.7%	3.1%	100%
Marine Diploma	78.2%	3.4%	12.6%	5.7%	0.0%	100%
Centre for Nursing Studies	87.4%	9.9%	1.8%	0.0%	0.9%	100%
Western Regional School of Nursing	94.3%	2.9%	0.0%	0.0%	2.9%	100%

Table 1 shows the employment status of graduates during the reference week of June 23-29, 2003. The reference week is at the beginning of the summer when most of the seasonal jobs are underway and when most teachers on one-year contracts are still employed. For most graduates, this week would occur approximately one year after graduation which would have allowed graduates looking for work a full year to find employment.

Employment status is broken down into five categories. The first two categories give the percentage of surveyed graduates who were working during the reference week, either full-time of part-time. *Full-time employment* refers to employment involving 30 or more hours of work during the reference week. *Part-time employment* refers to employment of less than 30 hours. For those not employed during the reference week, alternative categories included being unemployed, being back in school, or being engaged in some other form of unspecified activity. The percentage of surveyed graduates in each of these response categories is also presented.

Marine graduates with Advanced Diplomas reported the highest rate of unemployment at 25.0%. This rate was considerably higher than for all other groups. The next highest unemployment rates in the reference week were reported by Marine Certificate graduates (18.8%) followed by Memorial Undergraduate (14.6%) and Memorial Certificate graduates (13.8%). The lowest unemployment rates were reported by nursing school graduates (1.8% for the Centre of Nursing Studies and 0.0% for the Western Regional School). Note that rates for the Western Regional School are based only on the Bachelor of Nursing program whereas those for the Centre for Nursing Studies are based on three programs, including Practical Nursing whose graduates show slightly lower labour market outcomes. Also of note is the considerable percentage of graduates who were back in school during the reference week, particularly for graduates from Memorial Certificate (12.6%) , Memorial Undergraduate (10.4%), and Memorial Master's programs (9.3%).

Table 2: Graduates' weekly wage in reference week job (June 23-29, 2003)

	Very High ($800 or More)	High ($560 - $799)	Medium ($320 - $559)	Low ($320 or Less)	Total
Memorial Certificate	33.3%	25.6%	20.5%	20.5%	100%
Memorial Diploma	62.1%	24.1%	10.3%	3.4%	100%
Memorial Master's	77.7%	14.9%	6.6%	0.8%	100%
Memorial Undergraduate	31.8%	24.4%	29.8%	14.0%	100%
Marine Advanced Diploma	7.7%	46.2%	30.8%	15.4%	100%
Marine Certificate	20.0%	37.1%	28.6%	14.3%	100%
Marine Diploma	55.6%	30.2%	7.9%	6.3%	100%
Centre for Nursing Studies	47.2%	37.1%	14.6%	1.1%	100%
Western Regional School of Nursing	59.4%	31.3%	9.4%	0.0%	100%

Table 2 shows the distribution of weekly earnings for those graduates who indicated they were employed full-time in the reference week. The goal of the wage categories was to divide the graduates into very high, high, medium and low wage earners. The dividing lines of $320, $560 and $800 for the wage categories were selected based on hourly wages assuming a forty-hour week. The designation of the very high earnings category is $20 per hour or more, high between $14 and $20 per hour, medium between $8 and $14 per hour, and the low earnings category $8 per hour or less.

Memorial Master's programs reported the highest percentage of full-time employed graduates with high or very high wages (92.6%). This was followed by percentages for graduates from the Western Regional School of Nursing (90.7%), Memorial Diploma programs (86.2%), Marine Diploma programs (85.8%), and the Centre for Nursing Studies (84.3%). The difference in wage levels for the two nursing schools is, as mentioned above, largely due to the difference in programs at each school; the Practical Nursing program, in particular, brings the percentage of Centre for Nursing Studies graduates with high or very high wages down slightly. Finally, Marine Advanced Diploma programs had the lowest percentage of graduates reporting high or very high earnings (53.9%), followed by Memorial Undergraduate programs (56.2%) and Marine Certificate programs (57.1%).

Table 3: Relationship between reference week job and training

	Directly Related	Indirectly Related	Not at all Related	Total
Memorial Certificate	52.9%	15.7%	31.4%	100%
Memorial Diploma	48.8%	39.5%	11.6%	100%
Memorial Master's	74.1%	21.5%	4.4%	100%
Memorial Undergraduate	61.4%	17.5%	21.1%	100%
Marine Advanced Diploma	53.3%	20.0%	26.7%	100%
Marine Certificate	40.9%	11.4%	47.7%	100%
Marine Diploma	79.4%	11.8%	8.8%	100%
Centre for Nursing Studies	96.9%	0.0%	3.1%	100%
Western Regional School of Nursing	100.0%	0.0%	0.0%	100%

Table 3 shows graduates' opinions of the extent to which their jobs in the reference week were related to their training. The reported data apply only to graduates who reported full-time work in the reference week. *Related employment* refers to employment related to the training graduates received from their program while *not at all related employment* refers to employment not at all related to the graduates' program of training or study. *Indirectly related employment* refers to employment which utilizes some of the skills developed through training but which is not directly related to the training program as a whole.

As would be expected, graduates from the two schools of nursing in the province reported the highest percentage of graduates with reference week employment related to training. All Western Regional School of Nursing graduates and 96.9% of the Centre for Nursing Studies graduates stated that their reference week work was directly related to training.

For programs offered at Memorial University and Marine Institute, graduates from Marine Diploma programs reported the highest rate of reference week employment directly related to training (79.4%) followed by Memorial Master's graduates (74.1%), Memorial Undergraduates (61.4%), and Marine Advanced Diploma graduates (53.3%). Although a low percentage of Memorial Diploma graduates reported having work directly related to training (48.8%), these graduates reported the highest percentage of employment indirectly related to training (39.5%). Marine Certificate graduates had the highest percentage of graduates reporting work not at all related to training (47.7%).

Table 4: Out-migration of graduates (at time of survey)

	Outside Nf. & Lab.	Remaining in Nf. & Lab.	Total
Memorial Certificate	12.3%	87.7%	100%
Memorial Diploma	13.1%	86.9%	100%
Memorial Master's	22.8%	77.2%	100%
Memorial Undergraduate	21.9%	78.1%	100%
Marine Advanced Diploma	25.0%	75.0%	100%
Marine Certificate	27.0%	73.0%	100%
Marine Diploma	15.1%	84.9%	100%
Centre for Nursing Studies	20.9%	79.1%	100%
Western Regional School of Nursing	20.0%	80.0%	100%

Table 4 shows the level of out-migration of Memorial, Marine and nursing school graduates based on graduates' province of residence at the time the survey was conducted. Graduates were surveyed between January and May 2004 which, for most graduates, is just over a year following their last day of classes.

Graduates from Marine Certificate, Marine Advanced and Memorial Master's programs showed the highest level of out-migration at rates of 27.0%, 25.0%, and 22.8% respectively. In contrast, Memorial Certificate and Diploma graduates had the lowest levels of out-migration at 12.3% and 13.1%, respectively. Approximately 20% of nursing school graduates reported living outside the province at the time of the survey while 21.9% of Memorial Undergraduates and 15.1% of Marine Diploma graduates reported the same.

Table 5: Current Province of Residence (at time of survey)

	NL	NS	PEI	NB	PQ	ON	MB	SK	AB	BC	TERR	Other	Total

Western Regional School of Nursing	80.0	2.9	0.0	2.9	0.0	5.7	0.0	0.0	2.9	0.0	0.0	5.7	100

Table 5 shows the current province of residence for 2002 graduates as reported at the time of the survey. The percentage of graduates reporting residency in the province of Newfoundland and Labrador is identical to Table 4, with this table showing in more detail the provinces of residency for those who migrated from the province.

The provinces receiving the highest number of Memorial graduates were Ontario, Alberta, and Nova Scotia. The greatest percentage of Memorial Master's and Memorial Undergraduates moved to Ontario (11.0% and 6.9%, respectively) whereas the greatest percentage of Certificate and Diploma graduates moved to Nova Scotia (4.9% and 6.6%, respectively).

The highest percentage of Marine graduates reported residency at the time of the survey in Nova Scotia, Ontario, Alberta and British Columbia. For the Marine Certificate graduates and Marine Advanced Diploma graduates, the greatest percentage of graduates reported residence in Nova Scotia (11.1% and 8.3%, respectively) while Marine Diploma graduates had the highest percentage reporting residency in British Columbia (4.7%).

For the province's nursing school graduates, the out-migration destination of graduates varied between institutions. For the Centre for Nursing Studies, the greatest percentage of graduates reported residency in Nova Scotia (7.3%), Ontario (5.5%), and Alberta (2.7%), with only small numbers going to British Columbia, the territories, or to areas outside of Canada. In contrast, the greatest percentage of Western Regional School graduates outside the province went to Ontario (5.7%) and outside of Canada (5.7%) with smaller numbers going to Nova Scotia, New Brunswick, and Alberta.

Table 6: Satisfaction with investment of time for class and study

	Satisfied	Dissatisfied	Total
Memorial Certificate	86.0%	14.0%	100%
Memorial Diploma	85.5%	14.5%	100%
Memorial Master's	93.0%	7.0%	100%
Memorial Undergraduate	88.5%	11.5%	100%
Marine Advanced Diploma	87.5%	12.5%	100%
Marine Certificate	81.3%	18.8%	100%
Marine Diploma	90.8%	9.2%	100%
Centre for Nursing Studies	99.1%	0.9%	100%
Western Regional School of Nursing	100.0%	0.0%	100%

Table 6 shows graduate levels of satisfaction in response to the question, "When you consider the educational program you completed how satisfied are you NOW that your program was worth the personal investment of time required for class and study?"

Graduates from the Western Regional School of Nursing and the Centre for Nursing Studies reported very high rates of satisfaction with their personal investment of time (100.0% and 99.1%, respectively).

Most graduates from Memorial and the Marine Institute also reported being satisfied with their time investment although there were some differences in satisfaction rate for each category of graduates. Graduates from Memorial Master's programs reported the highest rate of satisfaction with their time invested in post-secondary education, at 93.0%. This was closely followed by graduates from Marine Diploma programs (90.8%), Memorial Undergraduate programs (88.5%), and Marine Advanced Diploma programs (87.5%). While Marine Certificate graduates had the lowest rate of satisfaction reported here, a reasonable percentage of graduates from this group were also satisfied with their personal investment of time and study (81.3%).

Table 7: Satisfaction with financial investment for education

	Satisfied	Dissatisfied	Total
Memorial Certificate	73.8%	26.2%	100%
Memorial Diploma	75.0%	25.0%	100%
Memorial Master's	89.6%	10.4%	100%
Memorial Undergraduate	77.0%	23.0%	100%
Marine Advanced Diploma	79.2%	20.8%	100%
Marine Certificate	65.6%	34.4%	100%
Marine Diploma	79.8%	20.2%	100%
Centre for Nursing Studies	83.8%	16.2%	100%
Western Regional School of Nursing	88.6%	11.4%	100%

Table 7 shows graduates' level of satisfaction in response to the question, "When you consider the educational program you completed how satisfied are you NOW that your program was worth the financial investment required?" In general, there was lower satisfaction with financial investment compared to time investment.

Memorial Master's graduates reported the highest percentage of satisfaction with their financial investment (89.6%). This was followed by graduates from the Western Regional School of Nursing (88.6%) and the Centre for Nursing Studies (83.8%). The lowest percentage of graduates reporting satisfaction with financial investment was found in the Marine Certificate program (65.6%) and the Memorial Certificate program (73.8%). Approximately 80% of Marine Diploma graduates were satisfied with their financial investment compared to 79.2% of Marine Advanced Diploma graduates, 77.0% of Memorial Undergraduates, and 75.0% of graduates from Memorial Certificate programs.

Table 8: Length of job search

	Job Before Graduation	3 Months or Less	4 to 6 Months	7 Months or More	Total
Memorial Certificate	69.6	17.9	10.7	1.8	100%
Memorial Diploma	73.5	14.3	6.1	6.1	100%
Memorial Master's	78.9	12.8	7.2	1.1	100%
Memorial Undergraduate	46.0	34.6	11.0	8.4	100%
Marine Advanced Diploma	61.9	19.0	14.3	4.8	100%
Marine Certificate	24.0	54.0	14.0	8.0	100%
Marine Diploma	22.2	44.4	23.6	9.7	100%
Centre for Nursing Studies	60.0	34.1	5.9	0.0	100%
Western Regional School of Nursing	87.1	12.9	0.0	0.0	100%

Table 8 shows the length of time for graduates to find their first full-time job following graduation. Only those job searches that resulted in full-time employment averaging over 30 hours per week were counted.

All graduates from the Western Regional School of Nursing reported finding a full-time job before graduation or within three months of graduation. The majority of graduates from the Centre from Nursing Studies (94.1%) reported similar outcomes. A high percentage of Memorial Master's graduates also reported having found a job before graduation or within three months of graduation (91.7%). This was followed by graduates of Memorial Diploma (87.8%) and Memorial Certificate (87.5%) programs. Marine Diploma programs had the lowest percentage of graduates reporting full-time employment before graduation or within three months of graduation (66.6%).

Table 9: Government student loans

	% Students with Loan	Average Loan for Program	% Students with Debt from Multiple Program(s)	Average Loan For all Programs Studied
Memorial Certificate	40.2%	$10,532	27.6%	$28,897
Memorial Diploma	22.6%	$10,542	11.3%	$20,923
Memorial Master's	19.4%	$9,038	14.5%	$26,780
Memorial Undergraduate	59.0%	$22,779	20.7%	$28,244
Marine Advanced Diploma	54.2%	$10,182	45.8%	$36,333
Marine Certificate	37.5%	$6,473	14.1%	$10,252
Marine Diploma	62.1%	$21,046	16.1%	$23,869
Centre for Nursing Studies	57.7%	$28,263	25.2%	$34,158
Western Regional School of Nursing	77.1%	$29,308	34.3%	$35,778

Table 9 shows the percentage of Memorial, Marine and nursing school graduates who had student loans and the average loan amount accumulated in the program from which they graduated. Graduates were also asked to report separately their student loan associated with the program for which they were interviewed and their total student loan from all programs. The percentage of students with debt from multiple programs refers to those who reported additional debt from programs other than the one for which they were interviewed. The total of all government student loans for all programs is also listed.

For Memorial, 59.0% of Undergraduates reported having student loans upon graduation and the average loan was $22,779, followed by Certificate graduates (40.2%) with an average loan amount of $10,532, Diploma graduates (22.6%) with an average loan amount of $10,542, and Master's graduates (19.4%) with an average loan amount of $9,038. Lower levels of student debt for Memorial Certificates may be attributed to the frequency that this program is pursued concurrently with an undergraduate degree. Likewise, the lower level of student debt in the Master's programs may be influenced by the fact that, while graduates of Master's programs generally have earned an undergraduate degree, they would have reported only the debt associated with their Master's program.

For Marine, graduates from the Diploma programs reported the highest usage of student loans (62.1%) as well as the highest student loan amount ($21,046). This was followed by graduates from Marine Advanced Diploma programs (54.2%), and Marine Certificate programs (37.5%). Graduates from Marine Advanced Diploma programs and Marine Certificate programs had average student loan amounts of $10,182 and $6,473, respectively.

In the nursing schools, 57.7% of graduates from the Centre for Nursing Studies reported having used government student loans compared to 77.1% of graduates from the Western Regional School of Nursing. The average loans for these two schools were $28,263 and $29,308, respectively.

The greatest percentage of graduates with debt from multiple programs is found in the Marine Advanced Diploma (45.8%), Western Regional School of Nursing (34.3%), Memorial Certificate (27.6%), and Centre for Nursing Studies programs (25.2%). The lowest percentage of graduates with debt from previous programs is found in Memorial Diploma programs (11.3%). Graduates from the remaining programs fall somewhere between this range with Memorial Undergraduate being on the higher end (20.7%) and Memorial Master's, Marine Certificate, and Marine Diploma being on the lower end (at approximately 15%).

A similar trend is also found in the average student loan amounts attached to all programs with Marine Advanced Diploma and nursing school graduates reporting the highest loan amounts (over $34,000 in all cases). In contrast, the lowest loan amounts were reported by graduates from the Memorial Diploma programs ($20,923) and especially the Marine Certificate programs ($10,252).

Users' Guide

This document provides accurate and current information to learners and other stakeholders on the learning and labour market experiences of graduates from Memorial University and Marine Institute of Memorial, the Centre for Nursing Studies and Western Memorial Regional School of Nursing. The two-page program profiles that follow focus on graduate employment, initial earnings, length of job search, satisfaction with programs, student debt and migration out of the province. This users' guide is designed to assist readers in interpreting the profiles and to highlight any methodological issues.

Response Rates

The numbers of graduates and response rates vary. Caution should be exercised when interpreting information when the response rates and numbers of graduates are low. In particular, Tables 2 and 3 present information only from graduates who had full-time employment in the reference week. These tables must therefore be interpreted while keeping in mind the resulting lower number of respondents.

Program Names and Locations

The names of the programs are the names that were used in the 2001/2002 academic year. Some of these may have changed since that time.

Some first year university courses have been and still are available at campuses of the College of the North Atlantic. Some undergraduate programs are offered at the Sir Wilfred Grenfell Campus of Memorial University in Corner Brook. For the purpose of this document, all graduates of Memorial University are considered by program as a single group.

Readers who may be interested in pursuing a program profiled in this report are advised to obtain a current calendar. The institution's calendar is the best source for the current name of the program, its description and the location where it is offered.

What were the labour market experiences of graduates?

Table 1: Employment status during reference week

This indicator presents the success of programs' graduates in obtaining work in the reference week June 23 to June 29, 2003. Although this indicator is only a snapshot of labour market activity, it allows easy comparison of one program to another. Full-time employment refers to employment involving 30 or more hours of work a week.

The reference week occurs in early summer when most seasonal jobs are underway and when teachers on contract are likely still employed. Furthermore, the reference week is a year following graduation for most graduates allowing them at least a year to find employment.

Table 2: Graduates' weekly wage in reference week job

Table 2 provides an indicator of the initial earnings of graduates. These numbers represent weekly salaries before taxes as stated by the graduates themselves.

It should be noted that only salaries for those graduates who indicated that they were employed full-time in the reference week are listed. Graduates who reported they were working part-time in the reference week may have also reported a weekly salary but these salaries were not included in the listed table of earnings. Consequently, for those programs with few respondents, this salary information should be viewed with caution. In cases where there were fewer than five actual respondents who stated they were engaged in full-time employment in the reference week and who reported a weekly salary, only the numbers are presented, as percentages can misrepresent these situations.

The total number of graduates who answered this question may not add to exactly the number of graduates who indicated they were employed full-time in the reference week because some graduates refused to answer the question and some indicated they were paid on a commission basis that is not directly comparable to one week of salaried wages.

Table 3: Relation of reference week job to training

As was the case for the salary indicator, only the responses of graduates who reported full-time employment in the reference week June 23 to June 29, 2003 were reported in Table 3. For those programs with few respondents, the employment related to training should be viewed with caution. Where there were fewer than five actual respondents who reported having full-time employment in the reference week, percentages are not presented. In several cases, the total number of graduates who answered this question may not add to exactly the number of graduates who indicated they were employed full-time in the reference week due to unreported information.

To what extent do graduates from this program leave the province?

Table 4: Out-migration of graduates

The information presented shows whether graduates reported residency in or out of Newfoundland and Labrador at the time they were surveyed between January 2004 and May 2004. Note that the time of the survey was over one year following graduation for most graduates.

Table 5: Current province of residence

The information presented shows the graduates' province of residence at the time they were surveyed between January 2004 and May 2002. Again, note that the time of the survey was over one year following graduation for most graduates.

Was the program worth it?

Table 6: Satisfaction with investment for class and study

All respondents answered this question. This indicator presents student satisfaction with their investment of time for class and study.

Table 7: Satisfaction with financial investment in education

All respondents answered this question. It should be noted that some programs at the Marine Institute and Memorial University were co-op programs and some graduates of the Marine Institute and Memorial University had tuition and living expenses paid by Human Resources and Skills Development Canada (HRSDC). In fact, as part of the post-secondary graduate follow-up survey, graduates were asked if "HRSDC/EI/UIC/TAGS/MANPOWER" funds were used to finance their program. A larger percentage of Marine Institute respondents (32.6%) indicated that they received this funding to some degree compared to approximately 1.8% of MUN respondents. Furthermore, only a small percentage of nursing school graduates reported use of this type of funding (18.9% for the Centre of Nursing Studies and 8.6% for the Western Regional School of Nursing). This is expected as students in university and most nursing programs are generally not eligible for such funding while those in college programs are eligible.

In addition, some graduates, particularly at the Memorial Master's and Diploma levels, completed their programs through part-time study that enabled them to continue paid employment during their course of study. These factors may have led to higher levels of satisfaction with financial investment than would otherwise have been the case. It is suggested that this indicator be viewed in conjunction with Table 9, which shows the level of student indebtedness, and Tables 1, 2 and 3 which show graduates' employment rates and the average weekly salaries.

How long did graduates take to get their first job?

Table 8: Length of job search

Only graduates who indicated they had found at least one full-time job following graduation answered this question. It may be helpful to view this indicator in conjunction with Tables 4 and 5, which show the out-migration of graduates, and Tables 1 to 3, which show the labour market success and salary levels of graduates. In some cases, a larger number of graduates reported their time to find a full-time job than reported working full-time in the reference week as reported in Table 1.

This scenario is the result of graduates finding full-time employment at some point following graduation but not actually working full-time in the reference week.

How much do graduates owe after graduation?

Table 9: Government student loans

The loan amount reported in the program profiles is what graduates specifically reported as the government loan associated with the program for which they were interviewed. In the **Key Findings** section, both total government student loan accumulated with the program and total loan associated with all post-secondary programs studied are reported to allow for comparison.

The percentage of students with debt from multiple programs refers to the percentage of all respondents who reported additional debt from programs other than the one for which they were interviewed. The average loan for all programs studied then takes into account the total loan amounts for all programs studied by a student and is based on the loan amounts reported by all respondents including those who only had loans for the program for which they were interviewed.

Note that loans from family members, private loans or private student lines of credit are not included in this analysis. The level of student debt reflected in this table is therefore likely to be an underestimate of graduate indebtedness attributable to their education.

As described earlier, some graduates of the Marine Institute were funded by HRSDC, some programs at both institutions are co-op, and some programs at Memorial University have large numbers of graduates who studied part-time enabling them to continue working while pursuing their education. Graduates of such programs likely reported a lower use of student loans.

Bachelor of Arts Anthropology, Memorial University

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All Undergraduate
Status	Number	Percentage	Percentage
Employed Full-Time	12	54.5	63.1
Employed Part-Time	3	13.6	9.4
Unemployed	5	22.7	14.6
In School	2	9.1	10.4
Other	0	0.0	2.4
Total	22	100.0	100.0

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Weekly Wage	Number	Percentage	Percentage
More than $800	0	0.0	31.8
Between $560 & $800	2	16.7	24.4
Between $320 & $560	8	66.7	29.8
Less than $320	2	16.7	14.0
Total	12	100.0	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Status	Number	Percentage	Percentage
Directly Related	5	41.7	61.4

Bachelor of Arts Folklore, Memorial University

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All Undergraduate
Status	Number	Percentage	Percentage
Employed Full-Time	2	28.6	63.1
Employed Part-Time	0	0.0	9.4
Unemployed	2	28.6	14.6
In School	3	42.9	10.4
Other	0	0.0	2.4
Total	7	100.0	100.0

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Weekly Wage	Number	Percentage	Percentage
More than $800	0	-	31.8
Between $560 & $800	0	-	24.4
Between $320 & $560	0	-	29.8
Less than $320	2	-	14.0
Total	2	-	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training
Graduates employed full-time in reference week only

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All Undergraduate
Status	Number	Percentage	Percentage
Employed Full-Time	3	27.3	63.1
Employed Part-Time	1	9.1	9.4
Unemployed	2	18.2	14.6
In School	5	45.5	10.4
Other	0	0.0	2.4
Total	11	100.0	100.0

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Weekly Wage	Number	Percentage	Percentage
More than $800	0	-	31.8
Between $560 & $800	0	-	24.4
Between $320 & $560	1	-	29.8
Less than $320	1	-	14.0
Total	2	-	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training

Diploma in Information Technology, Memorial University

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all diplomas programs at Memorial, a similar percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All Diplomas
Status	Number	Percentage	Percentage
Employed Full-Time	19	67.9	71.0
Employed Part-Time	4	14.3	12.9
Unemployed	4	14.3	12.9
In School	1	3.6	3.2
Other	0	0.0	0.0
Total	28	100.0	100.0

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all diplomas programs at Memorial, a higher proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Diplomas
Weekly Wage	Number	Percentage	Percentage
More than $800	7	58.3	62.1
Between $560 & $800	4	33.3	24.1
Between $320 & $560	0	0.0	10.3
Less than $320	1	8.3	3.4
Total	12	100.0	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all diplomas programs at Memorial, a lower proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training
Graduates employed full-time in reference week only

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all master's degrees at Memorial, a higher percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All Master's
Status	Number	Percentage	Percentage
Employed Full-Time	7	100.0	69.6
Employed Part-Time	0	0.0	7.5
Unemployed	0	0.0	11.0
In School	0	0.0	9.3
Other	0	0.0	2.6
Total	7	100.0	100.0

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all master's degrees at Memorial, a higher proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Master's
Weekly Wage	Number	Percentage	Percentage
More than $800	4	-	77.7
Between $560 & $800	0	-	14.9
Between $320 & $560	0	-	6.6
Less than $320	0	-	0.8
Total	4	-	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all master's degrees at Memorial, a similar proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training
Graduates employed full-time in reference week only

	This Program		All Master's
Status	Number	Percentage	Percentage

Table 2 shows the weekly earnings of this program's graduates who obtained full-time employment during the reference week.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates reported a salary in excess of $560 a week.

Table 2: Graduates' weekly wage in reference week job
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Weekly Wage	Number	Percentage	Percentage
More than $800	29	52.7	31.8
Between $560 & $800	21	38.2	24.4
Between $320 & $560	5	9.1	29.8
Less than $320	0	0.0	14.0
Total	55	100.0	100.0

Table 3 shows whether the graduates of this program who had attained full-time employment in the reference week considered their work related to their training.

Compared to all undergraduate degrees at Memorial, a higher proportion of this program's graduates considered their job directly related to their training.

Table 3: Relation of reference week job to training
Graduates employed full-time in reference week only

	This Program		All Undergraduate
Status	Number	Percentage	Percentage
Directly Related	61	100.0	61.4
Indirectly Related	0	0.0	17.5
Not at all Related	0	0.0	21.1
Total	61	100.0	100.0

To what extent did this program's graduates leave the Province?

Table 4 shows the residency of graduates at the time of the survey from January 2004 to May 2004.

Compared to all undergraduate degrees at Memorial, a lower percentage of this program's graduates reported they were still residents of the Province at the time of the survey.

Table 4: Graduates' residency at time of survey, January 2004 to May 2004

	This Program		All Undergraduate
Location	Number	Percentage	Percentage
In the Province	40	64.5	78.1
Out of the Province	22	35.5	21.9
Total	62	100.0	100.0

Graduates: 83 (11 Males, 72 Females)	Respondents: 63	Response rate: 75.9

Where did this program's graduates move?

Table 5: Graduates' residency by province/territory at the time of survey, January 2004 to May 2004

40	8	0	0	0	6	0	0	3	1	2	2	62

Was the program worth it?

Table 6 shows the level of satisfaction of this program's graduates with their personal investment of time for class and study.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates reported that they were satisfied with the personal investment of time for class and study.

Table 6: Satisfaction with personal investment of time for class and study		
	This Program	**All Undergraduate**
Status	Percentage	Percentage
Satisfied	100.0	88.5
Dissatisfied	0.0	11.5

Table 7 shows the level of satisfaction of this program's graduates with the financial investment required for their education.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates reported that they were satisfied with the financial investment required for their education.

Table 7: Satisfaction with financial investment in education		
	This Program	**All Undergraduate**
Satisfaction	Percentage	Percentage
Satisfied	82.5	77.0
Dissatisfied	17.5	23.0

How long did it take to get the first full-time job?

Table 8 shows the length of time this program's graduates took to find a full-time job.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates reported either finding a full-time job before graduation or finding a full-time job within 3 months of graduating.

Table 8: Length of Job Search		
	This Program	**All Undergraduate**
Status	Percentage	Percentage
Job Before Graduation	70.9	46.0
3 Months or Less	27.3	34.6
4 to 6 Months	1.8	11.0
7 or More Months	0.0	8.4

How much did graduates owe after graduation?

Table 9 shows the percentage of this program's graduates who reported having government student loans and the average amount of their loans.

Compared to all undergraduate degrees at Memorial, a higher percentage of this program's graduates had a government student loan and their average loan amount was higher.

Table 9: Government Student Loans		
	This Program	**All Undergraduate**
	Percentage	Percentage
Percentage of students with no loan	19.0	41.0
Percentage of students with loans	81.0	59.0
Average Loan in dollars	$32,143	$22,779

Practical Nursing, Centre for Nursing Studies

What were the labour market experiences of graduates?

Table 1 shows the employment status of this program's graduates during the reference week June 23-29, 2003.

Compared to all one-year college programs, a higher percentage of this program's graduates were employed full-time in the reference week.

Table 1: Employment status during reference week

	This Program		All One-Year Programs
Status	Number	Percentage	Percentage
Employed Full-Time	30	73.2	60.9

Appendix A: Multiple Program Profiles

The following table shows the numbers of graduates and respondents for the programs whose graduates were pooled for reporting purposes. The goal of this merging process was both to simplify the report and also to enable the reporting of programs that on their own had fewer than 5 respondents.

Undergraduate's Degrees		
Program	**Number of Graduates**	**Number of Responses**
Bachelor of Arts Historical Studies	1	1
Bachelor of Arts History	36	25
Bachelor of History/Historical Studies	37	26
Bachelor of Arts Computer Science	2	2
Bachelor of Science Computer Science	44	29
Bachelor of Arts/Science Computer Science	46	31
Bachelor of Arts Economics	11	5
Bachelor of Science Economics	3	2
Bachelor of Arts/Science Economics	14	7
Bachelor of Arts Geography	4	3
Bachelor of Science Geography	27	14
Bachelor of Arts/Science Geography	31	17
Bachelor of Education (Post-Secondary, 1st Degree)	8	5
Bachelor of Education (Post-Secondary, 2nd Degree)	2	2
Bachelor of Education (Post-Secondary)	10	7

Appendix B: Programs not Included in Profiles

The following list of programs had fewer than 5 respondents. Two-page profiles for each of these programs were not included in this document.

Undergraduate's Degrees		
Program	**Number of Graduates**	**Number of Responses**
Bachelor of Arts Canadian Studies	2	2
Bachelor of Arts Classical Studies	1	1
Bachelor of Arts Classics	2	1
Bachelor of Arts Environmental Studies	5	3
Bachelor of Arts German	8	1
Bachelor of Arts Greek and Roman Studies	3	3
Bachelor of Arts Mathematics	1	0
Bachelor of Arts Pure Mathematics	1	1
Bachelor of Arts Russian Language and Literature	5	2
Bachelor of Arts Social/Cultural Studies	2	1
Bachelor of Education (Native and Northern) - Prim/Elem	2	1
Bachelor of Education (Vocational)	2	2
Bachelor of Kinesiology	3	2
Bachelor of Physical Education (Teaching)	1	0
Bachelor of Physical Education Co-op (Teaching)	5	4
Bachelor of Science – Environmental Science (Chemistry)	4	3
Bachelor of Science Statistics	1	1
Honours Arts Anthropology (Archaeology)	4	3
Honours Arts Anthropology (Social/Cultural)	1	1
Honours Arts Philosophy	9	2
Honours Arts Political Science	7	4
Honours Arts Sociology	2	2
Honours Arts Sociology and Anthropology	2	0
Honours Music	4	3
Honours Science – Environmental Science (Biology)	1	1
Honours Science – Environmental Science (Chemistry)	1	0
Honours Science Applied Mathematics	1	1
Honours Science Biochemistry	5	1
Honours Science Biochemistry (Dietetics)	1	1
Honours Science Computer Science	2	1
Honours Science Computer Science (Software Engineer)	2	2

Diploma in Technology Education	21	3
Diploma in Telelearning and Rural School Teaching	2	2
Diploma in Vocational Education	4	3

Marine Institute of Memorial University

Program	Number of Graduates	Number of Responses
Marine Diesel Mechanics Certificate	18	3
Professional Fish Harvesters Level 1 Certificate	5	4
Electromechanical Engineering Technician Diploma	6	0
Electronics Engineering Technician Diploma	5	3
Bachelor of Maritime Studies	3	2
Master of Marine Studies (Fisheries Resource Management)	6	3

Appendix C: Follow-up Survey of 2002 Graduates

1. According to records provided for this survey, you graduated in 2002?

   From: _____

   IS THIS CORRECT? YES NO

   Received a degree/diploma/certificate in: _____

   with majors in: _____
   _____
   _____

   with minors in: _____
   _____

2. (a) Did your program include co-op placements or employment internships in outside organizations?

   YES NO

   (b) Were any of your work placements paid positions?

   YES NO

3. In what month and year did you begin your program?

   MONTH: _____ YEAR: _____

4. In what month and year did you actually complete the requirements for your degree/diploma/certificate? That is , when did you write the last exam –submit the last paper or defend your thesis – not the date that you actually received your degree, diploma or certificate?

   MONTH: _____ YEAR: _____

5. If you had your time back, which ONE of the following options would you select? (PICK ONE ONLY) (READ OUT LIST)

   1 The same program at the same institution
   2 A different program at the same institution (Specify below)
   3 No post-secondary program
   4 The same program at a different institution
   5 A different program at a different institution (Specify below)
   6 Other (Specify) _____

6. (a) Was the program from which you graduated your first choice for a post-secondary program?

   YES NO

   (b) What was the MAIN reason you were not able to do your first program of choice? (PICK ONE ONLY) (READ OUT LIST)

   1 Program was not offered in this location
   2 Did not have the prerequisites for program
   3 Program was filled
   4 Waiting list was too long
   5 Other (Specify) _____

7. (a) Have you taken further studies since graduating from this program?

YES NO

(b) Regarding these further studies, did you attend:
(READ OUT OPTIONS)

1 Full-time
2 Part-time

Name of Institution: _____

Campus Location: _____

Program Name: _____

(c) Why did you take these further studies?
(PICK ALL THAT APPLY) (READ OUT LIST)

1 Your job required further training
2 To upgrade qualifications in present field
3 Could not find a job related to your training
4 Personal interest
5 To enrol in apprenticeship program
6 To pursue purely academic interests
7 Could not find any job
8 Other (Specify) _____

Now we want to ask a few questions about your activities before you actually started to work towards your degree/diploma/certificate...

8. Before you enrolled in your program, what was the highest level of education you completed?
(DO NOT READ OUT LIST)

1 Grade 9 or Less
2 Some high school but did not graduate
3 Adult Basic Education Diploma
4 General Education Diploma
5 Completed high school
6 Partial completion of public/private college diploma/certificate
7 Completed public/private college diploma/certificate
8 Some previous university experience
9 University diploma/certificate below bachelor level
10 Bachelor degree (BA, BSc, 4-year BEd, etc.)
11 Diploma/certificate above bachelor level
12 Professional degree (MD, DDS, DMD, DVM, Law, OD, MDiv or 1-yr>bachelor's)
13 Master's degree (MA, MSc, MEd)
14 Doctorate (PhD, DSc, DEd)
15 Other (Specify) _____

9. Upon entering this program how knowledgeable were you about the potential for employment in this field (READ OUT LIST)

1 Very
2 Somewhat
3 Not at all

10. How strongly did employment opportunities influence your choice of program?

1 Very Strong
2 Strong
3 Somewhat Strong
4 Not At All

In the next series of questions, we would like to have you use a 4-point scale to indicate how satisfied you are with the educational program you completed. On this scale, a '1' is 'Very Satisfied', '2' is 'Somewhat Satisfied', '3' 'Somewhat Dissatisfied' and '4' 'Very Dissatisfied'. You may also indicate that the question is not applicable. [NOTE: '5' 'NOT APPLICABLE']

11. When you consider the education program you completed, how satisfied are you NOW with:

___ The overall quality of the program
___ The overall quality of the teaching/instruction
___ The content of the material covered by the program/courses
___ The opportunity to access the program (when you wanted to access it/them)
___ The opportunity to access the courses (when you wanted to access it/them)
___ The instructional facilities in the educational institution you attended (e.g. labs, classrooms, workshops, etc.)
___ The student facilities in the educational institution you attended (e.g. study space, library, cafeteria, etc.)
___ That your program was worth the financial investment required
___ That your program was worth the personal investment of time required for classes and study
___ The level of technology available to the students
___ The overall cost of the program (tuition, books, etc.)
___ The adequacy of financial assistance programs to cover your basic educational and living expenses
___ The extent to which the program provided you with the skills you needed for related employment
___ The class sizes for courses in your field of study
___ The methods by which your work was assessed/graded

Ask the next question to co-op students only.

___ The extent to which your co-op work experience or employment internship prepared you for work in your chosen field

Now we want to turn to some questions about your employment experiences from January 2003 to December 2003.

12. (a) First of all, we would like to get an indication of what you have been doing for each month since January 2003.

Example: For most of December, 2002 I worked full-time in a job related to my training and I attended school part-time. This answer is reflected by the checked boxes in the shaded column labeled example.

For **MOST** of that month; *Exampe*

Activities	Dec 2002	Jan 2003	Feb 2003	Mar 2003	Apr 2003	May 2003	June 2003	July 2003	Aug 2003	Sept 2003	Oct 2003	Nov 2003	Dec 2003
I was employed full-time in a job related to my training.	√												
I was employed full-time in a job unrelated to my training.													
I attended school full-time.													
I was employed part-time in a job related to my training.													
I was employed part-time in a job unrelated to my training.													
I looked for work but could not find any.													
I WAS NOT EMPLOYED,NOT A FULL-TIME STUDENT AND NOT LOOKING FOR WORK (in other words, the person was out of the labour market for some reason)

5 Retired
6 Other _____

FOR THOSE EMPLOYED IN REFERENCE WEEK:

17. Were you working for an employer or self-employed?

1 Working for an employer
2 Self-employed
3 Other (specify - e.g. unpaid family worker) _____

18. Was/Is this a permanent, temporary, casual, contractual or seasonal position?

1 Permanent
2 Temporary / Contractual
3 Casual-employed on an on-call basis
4 Seasonal

19. In what month and year did you start this job/start self-employment?

MONTH: _____ YEAR: _____

20. How many hours a week did you usually work at that job? HOURS: _____

21. What kind of work were you doing during the week of June 23-29?

PROBE - WHAT DO THEY DO EXACTLY? WHAT IS THEIR POSITION? WHAT PRODUCT OR SERVICE IS DELIVERED OR PRODUCED?

Job Title or Position Held: _____

Most Important Duties:

_____

_____

22. In what types of business, industry or service were you working?

PROBE - NAME OF COMPANY, MANUFACTURING? SELLING? SERVICING? CONSULTING? FIND OUT WHAT THE COMPANY DOES.

Company Name: _____
Type of Business: _____
(E.g. construction company, accounting practice, hair salon, provincial government department)
Street or Postal Box or Route: _____
City/Town: _____
Province: _____

23. (a) Would you say that your job during the week of June 23-29 was directly, indirectly or not at all related to this program of study?
(READ OUT LIST)

1 Directly related
2 Indirectly related
3 Not at all related

If the respondent chose 3, then ask 23 (b)

(b) Nonetheless, would you say that the program you took was good preparation for the job you held in the reference week?

YES NO

24. What were your gross wages for the week of June 23-29 - the total amount paid before taxes and other deductions?

(IF INCOME VARIED PROBE: well, what is your average gross wage per week? (DO NOT RECORD DECIMAL AMOUNTS - ROUND TO NEAREST DOLLAR)

GROSS WAGES: _____

25. What was/is your hourly wage before taxes?
(DO NOT READ LIST)

01	under $6.00	09	$20.01-$22.00
02	$6.01 -$8.00	10	$22.01-$24.00
03	$8.01 -$10.00	11	$24.01-$26.00
04	$10.01-$12.00	12	$26.01-$28.00
05	$12.01-$14.00	13	$28.01-$30.00
06	$14.01-$16.00	14	more than $30.00
07	$16.01-$18.00	15	Commission
08	$18.01-$20.00	16	Other: _____

26. Are you still working for the same employer that you worked for during the reference week June 23-29, 2003?

YES NO

The next series of questions will provide a profile of how graduates have financed their education.

27. (a) Were any of the following used to finance your program?
(READ EACH AND ENTER YES/NO FOR EACH ITEM)

1 Scholarships or bursaries
2 Assistance or grants from employers or the government other than any student loans
3 Workers' compensation
4 Government student loans
5 Other types of loans ie. Families, Employers, Banks, Credit Unions
6 Work-term employment
7 Employment during the school year (not work-term)
8 Employment during the summer months (not work term)
9 HRDC/UIC/EI/TAGS/Manpower
10 Social Assistance
11 Parents
12 Native Band Association
13 Personal Savings (RESP, etc.)
14 Other: _____

(b) What was your main source of funds to support your education?

SOURCE: _____

28. (a) Altogether, how much did you borrow through government student loans?

AMOUNT: _____

(b) Approximately how much of this amount was borrowed for the program being reported on in this interview? (In dollars)

AMOUNT: _____

(c) How much of your government student loans (in dollars) do you have left to be paid back?
AMOUNT: _____

Next are a series of questions, we would like ask you to indicate how satisfied you are with the services you received while obtaining student loans. Please use the following 4-point scale: '1' is 'Very Satisfied', '2' is 'Somewhat Satisfied', '3' 'Somewhat Dissatisfied' and '4' 'Very Dissatisfied'. You may also indicate that the question is not applicable. [NOTE: '5' 'NOT APPLICABLE']

29. (a) How satisfied are you with the overall quality of service provided by the bank/service provider?

(b) How satisfied are you with the overall quality of service provided by Student Aid/Student Financial Services?

(c) How satisfied are you with the overall quality of service provided by the Federal Government?

30. From which sources did you borrow money to finance your education other than government student loans?
(READ EACH AND ENTER Y OR N FOR EACH ITEM)

1 Family
2 Employers
3 Financial institutions such as banks or credit unions
4 Any other sources? Specify: _____

(b) Altogether, how much (in dollars) did you borrow from these sources?

AMOUNT: _____

(c) How much, in total, do you now owe on these loans?

AMOUNT: _____

31.

a) TOTAL GOVERNMENT LOANS	_____ $
b) TOTAL OTHER LOANS	_____ $
c) TOTAL BORROWED	_____ $
d) TOTAL GOVERNMENT LOANS OWING	_____ $
e) TOTAL OTHER LOANS OWING	_____ $
f) TOTAL DEBT OUTSTANDING	_____ $

According to the information you provided, you borrowed a total amount of _____ . You currently owe _____. And for the program reported on this interview, you borrowed $ _____ in government student loans? Is this correct?

YES NO

Now, just before we end ... a few questions about you so that we can compare the experiences of different groups of graduates...again no personal information will ever be reported.

32. In what year were you born?

YEAR _____

33. What is your marital status?

1 Single/never married
2 Married or living common-law
3 Separated or divorced
4 A widow or widower

34. Do you have any children financially dependent on you?

YES NO

35. What is the highest level of education completed by your father (or male legal guardian)? (DO NOT READ LIST)

1 Grade 9 or less
2 Some secondary but did not graduate
3 Completed secondary/technical high school
4 Some community college
5 Completed community college
6 Some university
7 Diploma/certificate below bachelor level (includes CEGEP)
8 Bachelor degree (BA, BSc, 4-year BEd)
9 Diploma/certificate above bachelor level
10 Professional degree MD, DDS, DMD, DVM, Law, OD, MDIV OR 1-yr > bachelor's
11 Master's degree (MA, MSc, MEd)
12 Earned doctorate (PhD, DSc, DEd)
13 Other (Specify) _____

36. What is the highest level of education completed by your mother (or female legal guardian)? (DO NOT READ LIST)

1 Grade 9 or less
2 Some secondary but did not graduate
3 Completed secondary/technical high school
4 Some community college
5 Completed community college
6 Some university
7 Diploma/certificate below bachelor level (includes CEGEP)
8 Bachelor degree (BA, BSc, 4-year BEd)
9 Diploma/certificate above bachelor level
10 Professional degree MD, DDS, DMD, DVM, Law, OD, MDIV OR 1-yr > bachelor's
11 Master's degree (MA, MSc, MEd)
12 Earned doctorate (PhD, DSc, DEd)
13 Other (Specify) _____

38. In taking this program, were you returning to a post-secondary institution to upgrade your skills or qualifications in the same field in which you were already employed full-time?

YES NO

39. The last item we have to do in this survey is to collect up-to-date contact information in case there are other follow-up surveys. Just to make sure that we have the most recent information, and to make sure that our records are correct, could I have your current telephone number, beginning with the area code?

Telephone Number: _____

And may I have the address for your current residence.

Street or Postal Box or Route: _____
City/Town: _____
Province: _____
Postal Code: _____

Is this address the same as your permanent residence?

YES NO

And may I have your permanent residence

Street or Postal Box or Route: _____
City/Town: _____
Province: _____
Postal Code: _____

Thanks very much for your time. Do you have any additional comments you would like to make?

POST INTERVIEW COMMENTS: _____

That's all the questions we have. We really appreciate your help.

Appendix D: Other Sources of Information

The subsequent list, while not exhaustive, includes a number of sources from which a large amount of information may be obtained either in print form or on the World Wide Web. In addition, many post-secondary institutions produce their own calendars, which are excellent sources of career planning material and can be obtained from the institutions themselves or referenced at Canada Employment Centres, public libraries, and at guidance and career counselors' offices.

Apprenticeship Training Programs:
Information regarding these programs may be obtained from the Division of Institutional and Industrial Education, Department of Education at the telephone number (709) 729-2729 or at the website address below:

Website: http://www.gov.nl.ca/edu/post/app.htm

Information on the Interprovincial Standards "Red Seal" Program can be obtained at the following website:

Website: www.red-seal.ca

Canada Prospects:
This is an annual career information resource newspaper produced in partnership through the Canada Career Consortium. *Canada Prospects* provides a glimpse of a variety of occupations and fields of work. It will help identify where opportunities can be found. Copies can be obtained by contacting the **Career Information Hotline** at 1-800-563-6600 or viewed online.

Website: www.careerccc.org

Canada WorkinfoNET:
Canada WorkinfoNET is a bilingual Internet portal with easy-to-find links providing career, learning and labour market information that is useful to Canadians in planning their vocational and career development. This Canada-wide partnership now has 1800 links to connect Canadians to the resources they need in the areas of jobs, work and recruiting; learning, education and training; occupations and careers; labour market information and outlook; self-employment; workplace issues and supports; and financial help and issues.

Website: www.workinfonet.ca

Career Information Hotline:
This service is offered by the Department of Human Resources, Labour and Employment of the Government of Newfoundland and Labrador. This is a toll-free telephone service offering career development and employment information, guidance and referrals. Career Development Specialists are available to assist people in making informed choices in their career and employment decisions. Information is available on career planning, occupations, education and training, job search strategies, employment programs and services and business assistance.

Telephone:	(709) 729-6600
Toll Free Telephone:	1-800-563-6600
Website:	www.gov.nl.ca/hre/employ&career/car_job_srch.htm

Career Information Resource Centres:
These centres are administered by Human Resources and Skills Development Canada (HRSDC) and are located in the following places: Clarenville, Corner Brook, Gander, Grand Falls-Windsor, Happy Valley-Goose Bay, Harbour Grace, Marystown, Placentia, Springdale, St. John's, and Stephenville. The centres are open on either a drop in basis or by appointment and are designed to provide information and guidance on career and employment planning, job searching, training options, and occupations. A combination of books, pamphlets, videos and personal assistance is available at each site. Further information and assistance is available from any office of Human Resources and Skills Development Canada. Contact information for each centre is also available on the Internet at the address listed below.

Website: www.hrsdc.gc.ca/en/gateways/where_you_live/regions/offices/nl.shtml

Community Career Centre:
The Community Career Centre aids the search for employment by offering programs such as job shadowing, occupational interviews and a speakers' bureau where dedicated individuals share their experiences and insights to the youth of the community.

Website: www.ccc.k12.nf.ca

Government of Canada's Jobs, Workers, Training and Careers Website:
This Government of Canada Portal provides users with information on job search tools and techniques, workplace information, training and learning resources; and career exploration. It contains a vast number of links to both Canadian Government and external sites that are useful to visitors.

Website: www.jobsetc.ca

Forum of Labour Market Ministers: Labour Market Information Resource Guide:
The forum of Labour Market Ministers' (FLMM) Labour Market Information (LMI) Working Group identified the need for an up-to-date resource guide to assist in the location and use of current electronic sources of economic and labour market statistics. The Labour Market Information Resource Guide provides brief descriptions of web links to current information on major economic indicators, such as data and forecast information and financial indicators. It also provides access to web sites that contain labour market, social, demographic and workplace statistics, projections and information.

Website: www.flmm-lmi.org/english/resIntro.asp

Government of Newfoundland and Labrador Website:
This is the official website of the Provincial Government, which has links to all government departments including those useful to people needing information about employment issues. These include the Departments of Education; Human Resources, Labour and Employment; Innovation, Trade and Rural Development; and the Public Service Commission of Newfoundland and Labrador.

Website: www.gov.nl.ca

Human Resource and Skills Development Canada (HRSDC):
In accordance with the HRSDC's mission to enable Canadians to participate fully in the workplace and the community, the national site of HRSDC provides information on the programs and services that it offers. It contains links to HRSDC sites in communities across Canada including the regional site for Newfoundland and Labrador, as well as locations where help can be found if one is looking for work or choosing a career. This site provides information about Employment Insurance programs, labour market information, learning opportunities, self-help products, community partnerships and federal legislation. In addition, this site provides links to the Job Bank, CanWIN and other sources of labour market information.

Website: www.hrsdc.gc.ca

HRSDC Career Awareness:
This website was developed by Human Resources and Skills Development Canada's (HRSDC) Career Development Team. It is designed to aid people in selecting and planning a career. It contains direct links to interactive quizzes and online software, as well as other related sites. In addition, this site describes and provides information for ordering many publications, videos, software, reference books and career materials.

Website: www.hrsdc.gc.ca/en/gateways/topics/cxo-gxr.shtml

HRSDC Labour Market Information:
Within the HRSDC website lies an abundance of career information designed to aid career choices. Information specific to the labour market in Newfoundland and Labrador is available on the HRSDC website given below by accessing the English page and then selecting the link labeled *About the Labour Market* and selecting Newfoundland and Labrador. The site provides exceptional variety and quantity of Newfoundland and Labrador market information including occupational profiles, potential employers, labour market reviews and other sources of labour market information. Occupational profiles are especially useful in choosing a career because they provide detailed information on occupations, including duties, employment requirements, terms and conditions of work, potential employers, CENSUS information, wage ranges, provincial employment trends, training availability and professional associations.

Website: www.labourmarketinformation.ca

Job Futures:
Job Futures is a publication of Human Resources and Skills Development Canada that provides both a current picture of job opportunities and a forecast of labour market conditions in Canada over the coming years. It provides very detailed information about where graduates work, educational requirements for occupations, earnings, and types of employment situations.

Visitors to this website can search profiles of 226 occupational groups covering the entire Canadian labour market or search the education and work experiences of recent graduates from 155 post-secondary education programs in Canada. General enquiries about Job Futures 2000 can be sent through the website or by contacting:

Mail: Publications Centre
Human Resources Development Canada
140 Promenade du Portage, Phase IV
Hull, Quebec K1A 0J9
Facsimile: (819) 953-7260
Website: www.jobfutures.ca/en/home.shtml

Newfoundland and Labrador WorkinfoNET (NLWIN):
NLWIN is a partnership of federal and provincial government departments and agencies, community agencies, educational institutions, professional associations, and the Newfoundland and Labrador Public Libraries.

The intention of NLWIN is to provide access to quality, up-to-date, provincial information on career and employment planning for residents of Newfoundland and Labrador. Through NLWIN, users may also gain access to national and international information on these subjects via **Canada WorkinfoNET**.

NLWIN contains information on a number of topics related to Career and Employment planning. For each topic, there is information on services and resources available including: career planning and labour market information, education and training, job search and job recruiting, self employment, financial help, programs and services, workplace issues and support.

Website: www.gov.nl.ca/nlwin

Student Financial Services, Department of Education:
Information from the Department of Education's Student Financial Services Division is readily available through the Internet or the telephone numbers listed below. The interactive website displays general information on the programs offered by the Division, allows individuals to complete student loan applications online and provides updates on the status of loan applications.

Website: www.edu.gov.nl.ca/studentaid

The Student Financial Services Division can be contacted directly:

Telephone:	(709) 729-5849	Or:	(709) 729-4244
Toll Free Telephone:	1-888-657-0800	Facsimile:	(709) 729-2298
E-mail:	studentaid@gov.nl.ca		

2004-2005 Transfer Guide:
This is a publication of the Newfoundland and Labrador Council on Higher Education. It is designed to be a guide to the transfer of credits in public post-secondary institutions in the Province including the College of the North Atlantic, Memorial University and the Marine Institute of Memorial. Specifically, this publication lists established course-by-course and program/block transfer of credit precedents available to students in the Province. Information is also provided on public institutional transfer policies, and programs linked to high school. The publication and an interactive credit transfer database are available free of charge on the internet at the following internet address.

Website: www.edu.gov.nl.ca/council

Copies of the published version of the document can be obtained directly from the Council on Higher Education, Department of Education through one of the following means.

Mail: The Newfoundland and Labrador Council on Higher Education
4th Floor, West Block Confederation Building
P.O. Box 8700
St. John's, NF
A1B 4J6
Telephone: (709) 729-5626

Youth Employment Strategy Website:
The Youth Resource Network of Canada is part of the Youth Employment Strategy implemented by Human Resources and Skills Development Canada (HRSDC). It helps youth bridge the gap between school and the labour market. It makes available a great deal of information that will be useful in each stage of a job-hunting effort. Most of the information listed in this site is already available on the Internet, but it was scattered and difficult to access prior to the implementation of the Youth Resource Network of Canada. Sites are placed under various headings corresponding to the steps involved in career planning including: self-assessment, job information, education, job search techniques, job opportunities, and self-employment. Other information may be found under the headings: news releases, statements and publications, and services and programs.

Website: www.youth.gc.ca

The Department of Education:

The government is committed to improving services to youth, strengthening the post-secondary education system and developing creative approaches to assist youth in making a successful transition from school to work. The Department of Education promotes access and opportunity to learning opportunities. The website contains a number of important resources dedicated to these goals under the subject headings of youth programs and services, post-secondary education, student financial assistance, international education, apprenticeship, credit transfer, and adult learning.

Website: www.gov.nl.ca/edu
